UID School Meeting – October 3, 2017

Participants: BFA 10, APD 19, IxD 17, TD 7, IDI 118, SSC 0, PhD 2 student, staff 18.

Agenda
1. Workshop safety
2. Insurance
3. Poster practices
4. Ställverket

1. Workshop safety

Due to the recent accident in the workshop Lasse Byström reminded about the safety rules in the workshop.
- Always be at least two persons in the workshop.
- Check in on each other. If someone seems tired, stressed or overworked - talk to them.
Safety first – no project is worth losing limbs over!
- Part of the UID culture to look out for each other.
- Don’t get too comfortable with the machines. Always have respect for cutting blades.
- Safety rules are to be followed in order to keep the workshop open, as it is today.
- The workshop Driving license can be evoked if it is abused.

If you want to do personal projects in the workshop, talk to a workshop responsible. The general rule is that you can’t do personal projects in the workshop, but something can be agreed upon.

2. Insurance

All students and staff are covered by an insurance. The insurance applies during school hours and on your way to and from school. School hours are when you are at school working, i.e. not dependent on time of the day. The insurance does not apply, however, if you are at school for social reasons, attending a pub for instance. Personal items, such as computers, phones etc. are not insured.

More information on accidents, safety and insurance is found in the online Student Handbook.

3. Poster practices

If you put up posters – use the poster holders attached to the doors.
No taping on walls, windows or poster holders. This is partly for safety reasons. Exit ways must be visible in case of fire etc., and partly due to cleaning problems (it is super difficult to get the tape residue off).

Come with suggestions on where to put more poster holders if there is a need for more (sysaid or talk to Anders Hellström). The need for another big pinboard was mentioned.

4. Ställverket

Ställverket informed that the theme for this year’s Halloween party will be “Games”. Every class will be responsible for making a game related area with a game theme or an actual game. More discussion on this next week at the Ställverket meeting.
